

Partners in better bread

The New divider and rounder Athena/Large

Sottoriva, Europe's leader in high quality bread and roll lines has added a new version of the Athena divider and rounder ...the **Athena/ Large**... the newest machine for the production of a large variety of bread and rolls. The **Athena/Large** features:

- Scaling from $\frac{3}{4}$ **oz. to 24 oz.** (25gr. to 700 gr.),
- A gentle dividing system suitable for high fermentation products.
- An easy to change the piston block system that requires no tools
- A very innovative system that makes the Athena extremely flexible and the line to make all your breads and rolls

The **Athena/Large** is available as a stand-alone machine or as a complete line with proofing, moulding, a variety of stamping and panning/boarding options.

Single pocket

2 pockets

6 pockets

Removing the piston block is fast and easy!
