Industrial Strength, Capacity and Versatility

Even stronger than the original! Empire’s new and improved ESV Removable Bowl Spiral Mixer features advanced engineering and rugged construction. The variable speed 30HP motor is strong enough to handle any dough, and the interchangeable tool system means the ESV’s versatility is unmatched!

The programmable touch screen control panel gives you full control over the entire mixing process. Coordinated spiral and bowl rotation provides intelligent ingredient blending, dough development and an overall better end product. Removable bowl design allows one mixer to run several production lines or to utilize bowls for long floor time dough. User friendly controls and heavy duty components throughout assure simple operation and reliable service.

1. Bread Dough capacities calculated at approximately 60% hydration. Actual capacities will vary based on specific hydration and consistency.
2. Bagel Dough capacities calculated at approximately 52% hydration. Mixers used for bagel and other low hydration doughs are rated at low speed only. Operation at high speed will void the warranty and risk damage to the machine.
